

SSD7505

4x M.2 Port to PCIe 4.0x16 NVMe RAID Controller

SSD7505

Quick Installation Guide

V1.04

System Requirements

PC Requirements

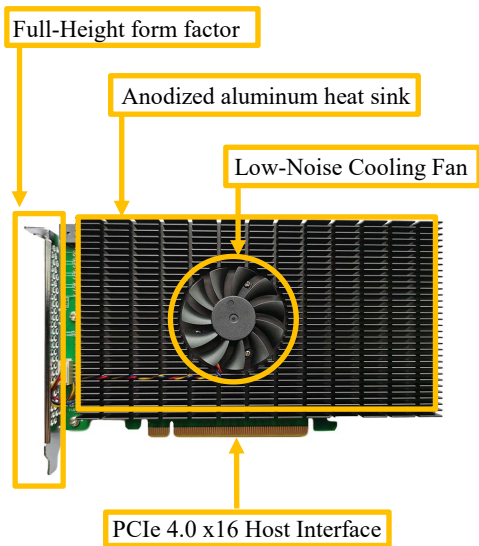

- System with a free PCIe 4.0 x16 or PCIe3.0 x16 slot
- Windows 10, Windows Server 2016 and Windows Server 2019
- Linux kernel 3.10 and later
- macOS 10.13 and later

SSD7505 Kit Content

- SSD7505 Controller Card
- Quick Installation Guide

SSD7505 Hardware

Front View

SSD7505 Hardware Installation:

Step 1. On the rear of the SSD7505, remove the six screws that secure the unit's heat sink to the PCB.

After removing the screws, carefully remove the heat sink from the SSD7505.

Step 2. These 4 screws are used to install the NVMe SSD's.

Step 3. Please remove the screws on the right side of SSD7505

Step 4. Gently insert the SSD into the slot.

Step 5. Refasten the screw to secure the SSD.

Repeat Steps 3 to 5 to install the remaining SSD.

Note: Make sure the SSD's are carefully, but securely installed into each M.2 port. Loose connections can cause a variety of stability and performance issues, and may ultimately result in data loss.

The following example shows four PCIe Gen4 SSD installed into Port 1, 2, 3 & 4;

Step 6. Replace the heat sink after installing all SSDs

Step 7. On the rear of the SSD7505, refasten the 6 screws that were removed in step 1.

Note: Make sure the aluminum cover is properly aligned with the controller board (PCB), and that it makes full contact with the thermal pad, before refastening it to the SSD7505. If the cover is improperly installed, the fan and thermal pad will be unable to sufficiently cool the NVMe SSD's and controller componentry, which may result in damage to the SSD's or controller hardware, performance loss, unstable I/O, and the loss of data.

Note: Please be sure to connect NVMe before using the product to reduce the occurrence of unnecessary errors!

Note: Install the driver in the system first and then install the board!

Resources

A variety of manuals, guides and FAQ's are available for the SSD7505 RAID controller.

In addition, we recommend visiting the Software Downloads webpage for the latest drivers, management interfaces, and installation guides.
